EXPERIENCE

LEAD FRONTEND ENGINEER @ Guidelt

6/2022-current | remote

Work within the team of leads to gather business requirements, communicate goals to larger developer team, and establish frontend coding standards.

- Designed, launched and scaled a React component library for building client applications.
- Designed and delivered client accounting software package. I created the UX, incorporated my custom React component library, and handled everything project-related from the api forward.

LEAD FRONTEND DEVELOPER @ Vail Resorts

12/2021-6/2022 | Broomfield, Colorado

Maintained and enhanced existing marketing and eCommerce websites. Collaborated with stakeholders for Adobe analytics tracking and A/B testing. Transitioning the SiteCore frontend to ReactJS components.

SENIOR FRONTEND DEVELOPER @ Various Contracts

06/2021-12/2021 | Remote

- *Charter Communications* - Contributed to converting the enterprise Design System Library documentation site from Vue 2 to Vue 3 within VuePress static site generator.
- *DocuSign* - Developed React components in an enterprise Design System Library.
- *Snap-Raise* - Designed & Launched the proof-of-concept for a reusable component library using Storybook and Stencil.js for Snap-Raise's SaaS software.

SENIOR FRONTEND DEVELOPER @ LANVERA

10/2019-06/2021 | Coppell, Texas

- Created a custom static site generator to re-skin existing SaaS financial services software.
- Created a custom Storybook & Vue library solution that connected to the UX Invision API, allowing us to quickly distribute our design system throughout the greater software development lifecycle.

WEB DEVELOPER @ FIRST-AMERICAN PAYMENT SYSTEMS

10/2016-10/2019 | Fort Worth, Texas

Developed all frontend and administrative functionalities for marketing CMS websites using the open-source C# product Umbraco.

- Assessed and improved business requirements based on UI design specifications.
- Updated and maintained .NET MVC product Umbraco for content management.
- Integrated with Salesforce API for marketing lead generation.

WORDPRESS DEVELOPER @ AT&T

2015-2016 | Dallas, Texas

Supported the AT&T small business user community forum with development and business process oversight. Developed and launched original marketing initiatives including contests and lead-generating efforts.

- Oversaw the migration of the project from an outside agency to internal servers.
- Led a team developers.
- Wrote custom WordPress plugins for marketing campaigns.
- Converted a large set of LESS stylesheets to SASS for forward compatibility with Bootstrap.

WEB DESIGNER / DEVELOPER @ FIRST WEB MARKETING

2013-2015 | Fort Worth, Texas

Designed original WordPress themes and plugins for local, service-oriented businesses.

- Introduced the team to CSS preprocessors.
- Wrote processes and best practices for CSS stylesheets.
- Used Schema code for local SEO results.

WEB DESIGNER / DEVELOPER @ SHEPLERS INC, ECOMMERCE

2012-2013 | Frisco, Texas

Designed and coded retail-to-consumer emails and eCommerce landing pages. Developed HTML emails and uploaded them to Silverpop Engage. Tested emails using Litmus. Updated html landing pages and performed site maintenance using HTML, CSS, and an in-house CMS. Created brand-consistent marketing campaigns for website and social media use using Adobe Creative Suite.

- Led initiative to bring the HTML coding of our email files in-house.
- Scripted email link replacements from excel to HTML code using python, saving the marketing team 2 or more production days per week.
- Initiated cross-browser/client compatibility testing using Litmus.

EDUCATION

BA JOURNALISM - University of North Texas

CONTINUING EDUCATION - @FreeCodeCamp
