

CHERYL CARPENTER

SENIOR FRONTEND ENGINEER

Frontend engineer passionate about crafting scalable, elegant, and accessible interfaces with React and TypeScript. Experienced in design systems, component libraries, and cross-functional collaboration from concept to production.

TECHNOLOGY STACKS

CORE

React, TypeScript, Next.js, JavaScript (ES6+), Node.js, HTML5, CSS/SCSS, Jest, Cypress

TOOLING & FRAMEWORKS

Tailwind, Emotion, Bootstrap, Webpack, Storybook, Vercel, Docker

BACKEND INTEGRATION

RESTful APIs, GraphQL, Prisma, AWS, Postgres

CMS

Headless CMS, WordPress (PHP), Umbraco (.NET), SiteCore (.NET)

EXPERIENCE

PRINCIPAL FRONTEND DEVELOPER @ TireRack

May 2023 – Present | Remote

- Architected and implemented **Next.js** applications powering new e-commerce platforms.
 - Designed and delivered a **React + TypeScript component library and design system**, enabling consistent and efficient product development across multiple brands.
 - Partnered with design, backend, and product teams to bring **pixel-perfect, performant, and maintainable** features to life.
 - Defined frontend-backend API contracts and optimized data flows for clarity and reliability.
 - Mentored junior developers, grew a frontend team, and established **best practices** for scalability and developer happiness.
 - Drove quality through **unit and end-to-end testing** with Jest and Cypress.
-

LEAD FRONTEND ENGINEER @ Guidelt

Jun 2022 – Apr 2023 | Remote

- Owned the frontend architecture for a full accounting software package built with **React + TypeScript**.
 - Created a scalable **component library** and design system from scratch, used across multiple client projects.
 - Collaborated closely with backend engineers to define data models and API structure.
 - Shipped product features from sketch to launch while maintaining a strong focus on **UX and performance**.
-

LEAD FRONTEND DEVELOPER @ Vail Resorts

Dec 2021 – Jun 2022 | Broomfield, CO

- Modernized legacy CMS frontends by introducing **React components** and reusable UI patterns.

- Collaborated with cross-functional teams on analytics tracking, A/B testing, and accessibility compliance.

SENIOR FRONTEND DEVELOPER (Contract) @ DocuSign, Charter, Snap-Raise

Jun 2021 – Dec 2021 | Remote

- Built and maintained enterprise **React design systems** and documentation libraries.
- Converted large-scale **VuePress** applications to **Vue 3**, improving performance and maintainability.
- Developed reusable **Storybook + Stencil.js** component systems for SaaS platforms.

SENIOR FRONTEND DEVELOPER @ Lanvera

Oct 2019 – Jun 2021 | Coppell, TX

- Built a custom **static site generator** and component framework for SaaS financial software.
- Created a **Vue.js design system** integrated with InVision for design-to-development synchronization.

EDUCATION

B.A. Journalism – University of North Texas

Continuing Education – FreeCodeCamp (JavaScript, React, Node.js)
